

AMENDMENTS TO THE SPECIFICATION

Page 5

The paragraph at lines 1-2 has been amended as follows:

A Hereunder, a ~~the~~ preferred embodiment of the present invention is explained in detail according to the accompanying drawings.

Page 7

The paragraph at lines 3-15 has been amended as follows:

A A timing signal is applied to the CCD 44, the CDS circuit 46, and the A/D converter 48 of the imaging part 2 from the timing generator 50, which is controlled by the CPU 38 to thereby synchronize the circuits.

Page 9

The paragraph at lines 23-28 has been amended as follows:

A The digital camera 1 is set to be an auto mode when a power switch 8 is turned on or the auto mode button 14 is pressed, and at that time the LCD 10 displays "auto" at the upper right of the screen (refer to Fig. 5). Pressing the manual mode button 15 sets the camera 1 to be a manual mode in which luminance and focus adjustment can be manually

Appl. No. 09/324,778

performed. Hereunder, a case for image-recording in the auto
mode will be explained.
